

Burlington City Dual-Mode Inc.

Global Financial Impact Assessment (2009 – 2011)

The Burlington City Dual-Mode Inc. Project will be presented before the U.S. Congress during a hearing process as an International Landmark for Dual-Mode Automation and a plan to rebuild American economies. Burlington City Dual-Mode Inc. will be displayed for **Government Officials, Institutional Investors, US Cities, States, and Countries** seeking solutions to **Alternative Transportation Solutions**. The **Guideway System (and its Renewable Energy System)** is the critical key factor in the development of this project.
